# Subject Index

## Canadian Journal of Plant Science, Volume 77, 1997

ACCase inhibitors
  field and producer weed resistance survey, 709
  resistance survey of Manitoba high risk townships, 703
Acetic
  corn response to low-molecular-weight acids, 333
15-acetyldeoxynivalenol
  effects of hill loss in barley on *Fusarium* and toxins, 161
Acid extract
  arabinoxylans in western Canadian barleys, 191
Adult plant
  assessment of resistance to leaf scorch in strawberry, 279
Adult plant resistance
  adult plant resistance to stem rust in wheat, 289
*Agropyron desertorum* (see Wheatgrass, crested)
*Agropyron elongatum* (see Wheatgrass, tall)
Alfalfa
  fractional analysis of self-incompatibility, 69
  genetics of callus proliferation in alfalfa, 225
  seeding with dry gel affects forage establishment, 381
  sodseeding vs. slotseeding in southwestern Saskatchewan, 573
  sward age affects on alfalfa yield, 595
Alfalfa mosaic virus
  virus resistance in red clover, 601
Allelopathy
  corn growth response to phenolic acids, 391
  corn response to low-molecular-weight acids, 333
  wheat straw placement on release of phenolic compounds, 301
Allogamy
  factorial analysis of self-incompatibility, 69
Alpine bluegrass
  floral induction in alpine bluegrass, 615
Analyse minérale
  influence du déficit de pression de vapeur et de la photopériode sur la tomate, 267
Antibody, monoclonal
  potato virus Y resistance in transgenic tobacco, 167
Apomixis
  reproductive mode in *Brachiaria*, 105
Apospory
  reproductive mode in *Brachiaria*, 105
Arabinoxylans
  arabinoxylans in western Canadian barleys, 191
Autogamy
  factorial analysis of self-incompatibility, 69
Available water
  factors influencing grain protein, 53
*Avena sativa* L. (see Oat)
Azuki bean
  AC Gemco azuki bean, 109

Backcross
  AC Gayed flue-cured tobacco, 157
Barley
  AC Alma barley, 635
  AC Harper six row barley, 631
  Evaluation of drought and heat tolerance in winter cereals, 523
  nitrogen benefits of field pea, 323
  nitrogen residual effects on field pea, 311
  OAC Elmira winter barley, 639
  arabinoxylans in western Canadian barleys, 191
  Persian clover with barley and ryegrass, 579
Barley, six-row spring feed
  AC Harper six-row, 631
Bean, azuki
  AC Gemco azuki bean, 109
Bean, common
  cultivar and strain effects on common bean, 347
  genetic variances on common bean, 533
Bean, mung
  AC Harosprout mungbean, 111
Bean sprout
  AC Harosprout mungbean, 111
Beetle
  detection of rusty grain beetles in wheat, 717
Berry
  cold hardiness research on fruit crops: review, 399
*Betula nigra* (voyez Bouleaux)
*Betula pendula* (voyez Bouleaux)
Biomasse
  influence du déficit de pression de vapeur et de la photopériode sur la tomate, 267
Biotechnology
  CDC Triffid transgenic flax, 641
Birdsfoot trefoil
  AC Langille birdsfoot trefoil, 653
  inheritance of tannins in birdsfoot trefoil, 587
  OAC Bright birdsfoot trefoil, 251
  seedling vigour in birdsfoot trefoil, 385
Black root rot resistance
  AC Gayed flue-cured tobacco, 157
  AC Maridel flue-cured tobacco, 159
Blueberry
  long-term effects of burn-pruning on blueberry production, 421
Bluegrass
  fertilizer effect on permanent pasture, 607
  floral induction in alpine bluegrass, 615
  Kentucky bluegrass forage quality, 75
  slow release fertilizer on Kentucky bluegrass, 433
Boron
  boron-isotope fractionation in plants, 627
*Botrytis cinerea*
  effect of fruit zone leaf removal on *Vitis vinifera* grapevines, 149
Bouleaux
  tolérance de *Betula pendula* et *Betula nigra* aux conditions climatiques, 445
*Brachiaria*
  reproductive mode in *Brachiaria*, 105
*Brassica*
  modified sterol profile affects pest insects, 677
*Brassica carinata* (see Mustard, Ethiopian)
*Brassica juncea* (see Mustard)
*Brassica oleracea* var. *italica* (see

Broccoli)
*Brassica rapa* (see Canola)
Breeding methods
reproductive mode in *Brachiaria*, 105
Broccoli
boron-isotope fractionation in plants, 627
Bromegrass
fertilizer effect on permanent pasture, 607
*Bromus inermis* (see Bromegrass)
Bunt, common, resistance to
AC Foremost red spring wheat, 657
Burning
long-term effects of burn-pruning on blueberry production, 421
Butyric
corn response to low-molecular-weight acids, 333

C18 unsaturated fatty acids
C18 unsaturated fatty acids in Ethiopian mustard, 91
Calcareous soil
vesicular arbuscular mycorrhizae mediated uptake and translocation by wheat, 339
Callus proliferation
genetics of callus proliferation in alfalfa, 225
Canadian prairie spring wheat
windrowing spring triticale, 561
Canola
AC Sunbeam summer turnip rape, 255
flea beetle injury to cotyledons, 475
nitrogen benefit of field pea, 323
nitrogen residual effect on field pea, 311
Canopy management
effect of fruit zone leaf removal on *Vitis vinifera* grapevines, 149
Cell wall
nutritive value of timothy cultivars, 237
Chilling
stress effects on flax flowering and yield, 97
Chlorophyll fluorescence
exposure of spinach leaves to ultra-violet-B radiation, 453
Clover, Persian
Persian clover with barley and ryegrass, 579
Clover, red
virus resistance in red clover, 601
Cold acclimation
planting date and cold stress tolerances in winter wheat, 507
Cold hardiness
cold hardiness research on fruit crops: review, 399
planting date and cold stress tolerances in winter wheat, 507
Cold hardiness testing
freezing, 469
Common bean
cultivar and strain effects on common bean, 347
genetic variances on common bean, 533
Common bunt resistance
AC Foremost red spring wheat, 657
Common root rot
losses and tolerance to common root rot, 691
Common wheat
adult plant resistance to stem rust in wheat, 289
Companion crop
companion and herbicide economics for forages, 231
Condensed tannins
inheritance of tannins in birdsfoot trefoil, 587
Control
*Linaria dalmatica* (L.) Mill., 483
Conventional tillage
tillage and rotation influence nitrogen fixation, 197
Corn
boron-isotope fractionation in plants, 627
corn growth response to phenolic acids, 391
corn response to low-molecular-weight acids, 333
corn response to phenolic acids, 333
Croissance
tolérance de *Betula pendula* et *Betula nigra* aux conditions climatiques, 445
Crop growth modelling
wheat studies in saline rooting media, 63
Crop response
wheat studies in saline rooting media, 63
Crop rotation
crop production under various input levels and rotations, 539
Crown moisture
planting date and cold stress tolerances in winter wheat, 507
*Cryptolestes*
detection of rusty grain beetles in wheat, 717
Cultivar
wheat tolerance to simulated ethalfluralin in carryover, 181
Cultivar description

Cultivar × strain interaction
cultivar and strain effects on common bean, 347
Culture
wheat haploidy performance, 549

Dalmatian toadflax
*Linaria dalmatica* (L.) Mill., 483
Damage response
flea beetle injury to cotyledons, 475
Data presentation
presenting statistical results, 11
Déficit de pression de vapeur
influence du déficit de pression de

vapeur et de la photopériode sur la tomate, 267
Defoliation
effect of fruit zone leaf removal on *Vitis vinifera* grapevines, 149
Degree-days
equation for predicting wheat yields, 43
factors influencing grain protein, 53
rye extract viscosity vs. temperature and precipitation, 555
Delayed planting
planting date and cold stress tolerances in winter wheat, 507
Deoxynivalenol
effects of hill loss in barley on *Fusarium* and toxins, 161
Deposition variability
off-target losses and deposition characteristics for a ground sprayer, 493
Development
modified sterol profile affects pest insects, 677
*Diclocarpon earlianum*
assessment of resistance to leaf scorch in strawberry, 279
Digestibility
nutritive value of timothy cultivars, 237
Disease resistance
AC Elsa hard red spring wheat, 661
OAC Elmira winter barley, 639
DNA
mitochondrial and nuclear DNA variation in lentil, 515
Dockage tester
detection of rusty grain beetles in wheat, 717
Dommages hivernaux
tolérance de *Betula pendula* et *Betula nigra* aux conditions climatiques, 445
Dormancy
growth and nucleotide levels of chilled strawberries, 127
Drip emitter
irrigation frequency and quantity affect root growth, 133
Drop seed
management effects on seed potatoes, 141
Droplet drift
off-target losses and deposition characteristics for a ground sprayer, 493
Droplet size
off-target losses and deposition characteristics for a ground sprayer, 493
Drought screening
Evaluation of drought and heat tolerance in winter cereals, 523
Duration effects
low temperature duration effects on winter wheat freezing tolerance, 15

Economic analysis
forage in wolf plants of crested wheatgrass, 367
Economics
companion and herbicide economics for forages, 231
Electronic publishing
the future of scientific journals, 1

salt tolerance in slender wheatgrass, 81
Wildlife
agricultural practices and flora of wildlife habitats, 293
Windrowing
windrowing spring triticale, 561
Winter cereal
low temperature duration effects on winter wheat freezing tolerance, 15
Winter hardiness
cold hardiness research on fruit crops: review, 399
OAC Elmira winter barley, 639
Winter injury
low temperature duration effects on winter wheat freezing tolerance, 15
planting date and cold stress tolerances in winter wheat, 507
Woodland edge
agricultural practices and flora of wildlife habitats, 293

Yield reduction
effect of *Mycosphaerella pinodes* on yield of field pea, 685

*Zea mays* L. (see Corn)
Zero tillage
tillage and rotation influence nitrogen fixation, 197
Zinc
vesicular arbuscular mycorrhizae mediated uptake and translocation by wheat, 339
